

TESL CANADA
Teachers of English as a Second Language - Canada

April 30, 2022

Happy Spring to everyone! I hope that the coming of Spring brings you optimism for the year. At TESL Canada, we continue to be optimistic in our endeavours. We are continuing with the strategic planning process and we expect to be producing a survey for general membership about what directions we would like to take in the coming years. We are continuing to reach out to new and old partners in order to enrich the TESL community in Canada. We are finalizing when we would like to have our annual general meeting in the Fall.

Unfortunately, no conference is planned for this year. We are building on our financial stability, health and auto insurance programs, certification, professional development, educational fund, provincial and federal associations and seeing where we move beyond.

All the best,

Donald Moen
President, TESL Canada
