

## TEACHING CHILDREN IN ESL/EFL CLASSES

### WORKSHOP OVERVIEW

Often times TESL trained teachers go overseas and find themselves in front of a classroom of children with no experience of how to teach them. This four-hour virtual workshop on Teaching Children in the ESL/EFL classroom will provide participants with practical strategies that can be used in an English language classroom full of young learners whether in Canada or overseas. Participants will learn classroom management strategies and reward systems and how to create a supportive learning environment and activities that can be used with young learners. Participants will also have the opportunity to learn how the activities and materials used in adult learning language classes can be adapted for children.

### UPCOMING VIRTUAL WORKSHOP

**Date:** Saturday, November 7, 2020

**Time:** 10:00 am - 2:00 pm

**Location:** Virtual

**Cost:** \$77.72
